BHA530/00

Multiple hairstyles with extra care

Philips Air Styler 5000 for the easy hair styles everyday. The warm air is evenly distributed throughout the brush, while Ionic care helps your hair to shine more.

Beautifully styled hair

- Three flexible heat and speed settings for easy control
- 38 mm ThermoBrush for smooth styles and waves
- Narrow concentrator for focused airflow
- Paddle straightening brush for naturally straight look
- 30 mm retractable bristle brush for defined waves
- Volumizer for more volume at the roots
- 5 attachments

Less Hair Damage

- Less overheating with Even Heat Distribution technology

Care and protect

- Argan-oil infused ceramic plates for smooth gliding
- Care setting for better protection while drying and styling
- Cool air setting for gentle drying
- 4x more ionic care*

Highlights

Even Heat Distribution

The Even Heat Distribution technology provides maximum protection for your hair from overheating and thus helps to keep it healthy-looking and shiny.

4x more ionic care*

This airstyler gives your hair instant care with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

Variety of styles and volume

This Air Styler features 5 attachments to create different styles – from naturally straight look, to defined waves and volume at the roots.

Three flexible settings

The speed and heat required can be easily adjusted to create the perfect result. Three flexible settings ensure precise and tailored styling.

Paddle straightening brush

The paddle-shaped straightening brush is designed to help you create naturally straight look in one go.

38 mm ThermoBrush

The ThermoBrush has an extra wide diameter of 38 mm. The width of the barrel makes it the perfect styling tool for creating smooth styles and waves.

Retractable bristle brush

The 30 mm brush with retractable bristles is designed for the easy styling. Turn the tip of the brush and slide it out for defined waves.

Narrow concentrator

Use the narrow concentrator for the focused airflow for precise styling or touch-ups.

Volumizer

Create the volume at the roots with a specially designed volumizer attachment.

Care setting

The 'Care' setting ensures the optimum drying temperature and guards against overheating. Hair still dries fast, with the same powerful airflow but at a constant, caring temperature.

Cool air setting

The Cool air setting uses low heat to gently dry your hair. It works especially well with fine, dry or damaged hair.

Argan-oil infused plates

The straightener uses ceramic plates infused with argan oil to make styling fast and effortless, with a gliding action that feels as silky smooth as your hair looks.
